Integrated Pest Management Initial Notification Form School Year 2008-2009

SPECIAL NOTICE

Dear Parent/Guardian and Staff:

Country Care Daycare has implemented a special program of Integrated Pest Management (I.P.M.) in order to control pest in a way that minimizes economic, health and environmental risks via a monitoring and inspection program and the judicious use of pesticides. Those individuals applying pesticides will be properly certified in keeping with applicable legal requirements for the IPM program.

If you want to be notified twenty-four (24) hours in advance of a planned pesticide application, other than when bait is used, or as soon as possible when an emergency pesticide application is necessary, please register by signing, dating and marking "YES" at the bottom of this notification.

If you **do not wish to be notified**, please acknowledge your receipt of this notice by signing, dating and marking "NO" at the bottom.

Thank you for your prompt attention to this matter, and as always, Country Care continues to strive for continued health and safety of your children and our staff.

Sincerely,

I, _____ hereby sign as verification
of receipt of this notice am marking my intentions
